Front-End Development
React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

CMS & Web Design
WordPress, Elementor Pro, WooCommerce, Theme Customization, Site Speed Optimization

AI & Developer Tools
AI-Assisted Coding, Prompt Engineering, Git, GitHub, VS Code, Netlify, Vercel

MIS & Systems
Systems Analysis, UI/UX Workflow Design, Enterprise Info Systems, C++

CORE COMPETENCIES

- Modern UI/UX Implementation & React Development
- AI-Driven Workflow Acceleration & Prompt Engineering
- Fast Learner & Highly Adaptable to New Frameworks
- Custom WordPress Solutions & E-Commerce Setup
- Cross-Browser Compatibility & Responsive Layouts

LANGUAGES & INTERESTS

- **Arabic:** Native
- **English:** Professional Working Proficiency
- **Spanish:** Elementary / Learning
- **Interests:** AI-Powered Web Tools, Interactive UI Design, E-Commerce

FEATURED PROJECTS & DEVELOPMENT

St. Mark School Educational Platform
Web Portal Interface

Front-End Educational Platform

- Developed modern, responsive student-facing interfaces for St. Mark School web portal to ensure seamless content accessibility.
- Designed structured UI components for dynamic course tracking, resource downloads, and school announcements.

Bero World & Kasper Projects
Web Interface Projects

Interactive Ecosystems & Custom Agency UI

- **Bero World:** Interactive web interface featuring modern front-end components, customizable dashboard layouts, and smooth data views.
- **Kasper (Kasbar):** Implemented a sleek, responsive agency-style web interface with interactive navigation and tailored media components.

WordPress & E-Commerce Web Solutions
CMS & Web Design

Custom Store Builds & Layout Design

- Architected e-commerce platforms (Aura Brand) and corporate websites using custom WordPress setups, Elementor Pro, and WooCommerce.
- Customized themes and optimized front-end layout elements for fast loading speeds and high conversion UX.

Front-End Tools & Web Applications
JS & React Systems

Data Management & UI Toolkit

- **CRUDS Product Management System:** Built an interactive web app using vanilla JS and LocalStorage for client-side data handling.
- **Bero UI Library:** Built a modular UI component toolkit with full RTL/LTR layout support using Tailwind CSS and Bootstrap.

EDUCATION

Bachelor of Management Information Systems (MIS)
University Student • Egypt

Relevant Coursework: Object-Oriented Programming (C++), Enterprise Information Systems, Operations Research, Project Management, and E-Business Infrastructure.
